The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Reuter (U.S. Patent No. 4,023,075).

As to claim 15, Reuter discloses a device comprising an analyzer circuit (51) connected to a power supply line (13) as shown in Fig.4, the analyzer circuit including a frequency-selective filter and a threshold detector (See abstract; col. 5, lines 4-8).
